The Animal Damage Management (Rodent/Predator) Program functions of the WDA Technical Services Division are multi-faceted. Primary duties include:

- Administrative support for the Animal Damage Management Board for enhancement of wildlife and a decrease in livestock loss by depredation
 - Coordination of activities with the Predatory Animal Advisory Board
 - Coordination of activities with the 23 County Predatory Animal Districts
- Training of pesticide applicators for the M-44, Livestock Protection Collar, and small animal management supplies and techniques
- Working with Federal, State, County, local agencies and related wildlife and livestock associations in areas of wildlife and predatory animal issues
 - Issuance of aerial hunting permits to pilots and gunners and predator aircraft licensing

State Resources:

- Wyoming Statutes, Rules & Descriptions
